

Data

1. New York City data containing neighborhoods, boroughs, latitudes and longitudes.

- https://cocl.us/new_york_dataset
- This data set contains the required information. And I will use this data set to explore various neighborhoods of New York City.

2. Chinese restaurants in each neighborhood of New York City:

- Foursquare API
- By using this API, I will get all the venues in each neighborhood, I will then filter these to get only Chinese restaurants.
