Data

- 1. New York City data containing neighborhoods, boroughs, latitudes and longitudes.
 - https://cocl.us/new york dataset
 - This data set contains the required information. And I will use this data set to explore various neighborhoods of New York City.
- 2. Chinese restaurants in each neighborhood of New York City:
 - Foursquare API
 - By using this API, I will get all the venues in each neighborhood, I will then filter these to get only Chinese restaurants.
